Statement:

Our group has been involved with Tesla Motors since the formation of Tesla Motors.

We hereby confirm and verify that Tesla Motors has knowingly obfuscated previous investigations of safety and anti-trust issues in an ongoing effort to operate in a greed-over-safety business plan.

Tesla Motors staff and investors have threatened the lives and safety of those who might speak out about the abuse and negligence at Tesla Motors.

This matter is far more than a “few accidents”. Tesla Motors practices organized crime-like RICO violating manipulations within the industry. Elon Musk, his staff and investors, will lie to save their reputations at any cost.

We have communicated with the FBI, GAO, FTC and other investigators about this matter. You will find more than enough evidence at <http://www.outloud.biz> and thousands of other mirrors, to prove our assertions.

This public record letter shall serve as a public notice of our assertion of criminally negligent and illicit practices by Tesla Motors. We encourage the NLRB to deeply investigate Tesla Motors and to cooperate with the FBI, SEC, GAO and IG's with concurrent investigations into Tesla Motors.

Elon Musk, and his investors, traded election campaign rigging services with internet companies owned by Musk's Cartel for government grants and free loans from taxpayers. It wasn't "*The Russians*" rigging the last few elections. It was Elon Musk and his Cartel. Musk's Cartel backed Obama and Clinton. They have publicly admitted this. The California and New York Attorney General's were running cover for the Tesla scam and various agencies were ordered to not investigate the various crimes, safety violations, stock frauds, pump-and-dumps, employee abuses, deaths and other illicit deeds by Tesla. Musk had protection from every agency during the Obama Administration because those agency heads held stock market profits in the Cartel suppliers. Now their cover-up is falling apart as the swamp gets drained!

Tesla Motors engaged in multiple felonies. Our associates have put this in writing to both James Comey and Christopher Wray, at the FBI, and copied it to every independent media outlet! The cover-ups are over!

Over 100 of us are prepared to testify to Elon Musk's and Tesla Motors criminal abuse of the industrial system and the bribery of political officials in order to operate cover-ups!
